

# Removable Fabric Wallpaper

## PRODUCT SPECIFICATIONS

Thanks to its patented adhesive technology, Hello Sticky's Self Adhesive Fabric removable wallpaper is easy on the eyes, easy to install, and easy on the environment. It will not shrink, curl, rip or wrinkle, it is completely repositionable during installation and it can easily be removed after a day or a decade with no damage to the existing wall. It is environmentally safe and recyclable, contains no PVC or VOCs, is nontoxic, phthalates-free, formaldehyde-free and LEED Certified.

### Material Overview:

Product Name:	Self Adhesive Fabric   Type I Wallcovering		
Product Size:	Variable, 8ft or 10ft panels		
Product Material:	<b>NAME</b>	<b>CONTENTS (%)</b>	
	Polyester Textile ( 100% Polyester Fabric )	40-45%	
	Pulp, Cellulose	40-45%	
	Silicone Dioxide ( CAS # 7631-86-9 )	3-7%	
	Polyacrylic Acid Ester	3-7%	
	Additive	3-7%	
Additional:	Water based latex ink, no-off gassing, inks are GREENGUARD Gold certified		
Supply Chain /Source Location:	South Korea, United States		

### Material Attributes Comparision:

	SELF ADHESIVE FABRIC	VINYL	PAPER & PASTE
<b>USABILITY</b>			
Durability	abrasion resistant, stain resistant	depends	scuffable, scratchable and stainable
Washability   Maintenance	washable, scrubable	depends	mild cleaners only
Longevity	removable	permanent	permanent
Repositionable   Reusable	yes	no	no
Material Cost	\$\$\$	\$	\$
Installation Cost	-	\$\$\$	\$\$\$
Is there a chance of damage during install?	material is very resilient, does not stretch, shrink or permanently wrinkle during installation, NO professional installer required	material prone to stretching, shrinking, wrinkling during install, professional installer required	additional paste required, if not applied correctly may be prone to wrinkles and require replacement, professional installer required
Ease of Installation & Repair			
Suitable Installation Locations	almost all indoor environments	avoid environments with moisture	avoid environments with moisture
Is it breathable & can handle extreme temperature changes?	yes	no	typically, not meant for extreme temps
Excess Waste?	printed as required	printed as required	typically excess waste as rolls sold in bulk lengths
<b>GREEN ATTRIBUTES</b>			
No-vinyl, No PVC's, No Formaldehyde	<input checked="" type="checkbox"/>	no	dependent on material & glue used
No VOC's	<input checked="" type="checkbox"/>	depends on ink & vinyl used	dependent on material & glue used
Recyclable, at end of life	<input checked="" type="checkbox"/>	typically no	dependent on material & glue used
